8 module inner outer plate with 2 module
fan regulator, one-way indicator switches & 5-pin socket

athena
...dust free switches

Crabtree products represent a fine blend of art and science. Designing aesthetically appealing products while maintaining high levels of engineering excellence over the years, has helped Crabtree maintain its leadership position in the product category.

Keeping in tune with this, Crabtree brings out a shining range of switches called Athena.

True to the word, our wisdom has guided us to develop this range in a way that enhances the beauty of the walls that it adorns, while allowing it to be dust free through anti-static finish and a design that minimises the gap between the socket/switch and the plate.
